

✨✨ Get the good guitar!

ci

I did not become any better. *As* time
passing by, I become more depressed. There
is no hope in my life.

 See the end of my story

I found a coffee shop and got a part-time job to save money in order to buy my fav guitar!

Few months later, I saved enough money to buy my favorite guitar, I was so excited about this! I went online, and found my favorite guitar is still in stock! I am so proud of myself and excited!
